# Bar TRACK™

Grouser Products has been improving skid steer productivity for over two decades. Our fundamental track design continues to be the top choice among experienced operators. Get more out of you skid steer with Grouser Tracks.

Open bar design utilizes the tire to provide maximum traction and flotation

Contractor grade, heavy duty components

Large 1-1/4" hardened, field replaceable bushings

2" wide bars are 30% larger than previous tracks for longer life

Larger traction bars for improved track-to-tire grip

Patented open side plate for excellent clean out in the pivot area

Improved side wall design for today's heavy duty tires

Built-in length adjustment

Run loose design

Self cleaning

Reduces tire wear in abrasive conditions

Adds counterweight

Provides tire protection

May be installed in 30 minutes or removed in 10 minutes

Field serviceable

Rebuildable

Reduces ground pressure by as much as 50%

- Improved side wall design for today's heavy duty tires
- Built-in length adjustment
- Run loose design
- Self cleaning
- Reduces tire wear in abrasive conditions
- Adds counterweight
- Provides tire protection
- May be installed in 30 minutes or removed in 10 minutes
- Field serviceable
- Rebuildable
- Reduces ground pressure by as much as 50%

"Your steel tracks... wouldn't and couldn't do without them. Thanks."

"I would be lost without your (Bar) tracks. The bushings lasted 1 1/2 years and the tracks haven't been taken off since they were put on. Excellent product."

"Thank you for your help on building up our Grouser tracks. We have run these tracks for approximately three years. We find them substantially superior to any other tracks in our application. In fact, we are going exclusively with Grouser."

"My staff and I rely heavily on the support that Grouser Products has given us over the years. We have tried a few other brands, but none compare on the durability and competitive pricing that we receive along with Grouser's great attitudes."

# Soft TRACK® Brand Tracks

- Replacable traction insert
- Soft Pads are replaceable
- Replaceable traction bar
- Field serviceable
- Run loose design
- Patented open side blade for excellent clean out in the pivot area
- Adds counterweight
- May be installed in 30 minutes or removed in 10 minutes
- Contractor grade, heavy duty components
- Non Marking soft shoes

# 1300 Series DOZER BLADE™

by GROUSER PRODUCTS

## STRONG

- Designed for rubber tired and tracked skid steer loaders
- Fully assembled - ready to go!
- Weights between 1400 & 1500 lbs.
- Cast Moldboard - 5/16" thick x 24" high
- Cutting Edge 5/8" x 6" reversible
- Universal Quick Attach
- Hydraulic angle and tilt control
- Electric valve allows control of angle and tilt using only one loader valve
- Blade angles 30 deg. left and right
- Blade tilts 10 deg.
- Blade widths from 6' (72") to 9' (108")
- Angle cylinders - 4"x8" with 2" rods
- Tilt cylinders - 4"x8" with 2" rods
- Adjustable skid shoes

## CAST

- Attractive design with exceptionally strong cast components
- Cast design provides a cavity to protect the electric diverter valve
- Cast design places the electric diverter valve closer to the cylinders making hose routing neat and efficient
- Cast female quick attach meets SAE specifications
- Full safety step area
